## Faith & Treviso

Full grain aniline leather

Aniline leather is colored only with dye and has little to no surface coating of polymer and pigment. This greatly contributes to the leather's great comfort and exclusivity. A light surface coating can be applied to enhance its appearance and offer slight protection against spillages and soiling. The full grain aniline leather has unique surface characteristics of the hide remaining visible. The leather is soft, flexible and smooth. The light fastness grade is not high, usually 4 or below, meaning the sofa/chair upholstered in Faith & Treviso should be protected against direct sunlight etc. It absorbs liquids and greases more easily, eventually giving the leather patina.

### **Maintenance**

Dust on a weekly basis with a soft cloth or vacuum with a soft brush. Aniline leather can optionally be finished with leather cream - protecting against spillage and stains. For a more detailed guide to maintenance please contact your nearest Wendelbo dealer.

### **Suitable for**

Faith and Treviso leather is suitable for larger sofa combinations like Blade, Edge, Elementz, Mood, Nova, Peak and Surface, as well as on smaller surfaces like lounge chairs Aero, Hug, Lobby, Sunday, Vista & Chill.

Faith black, Faith Cognac, Faith Whiskey, Faith Dark Brown  
Treviso Black, Treviso Cognac, Treviso Dark Brown

## Patrol

Corrected grain semi aniline leather

Semi-aniline leather has a thinner layer of color and surface finish compared to the tire leather. This treatment makes the leather more resilient and easier to maintain (but less soft). At the same time, the leather retains its good seating comfort. The advantage of semi-aniline is that it combines the natural look that characterizes aniline leather, with good durability and easier maintenance. Semi-aniline can withstand hard wear and is barely susceptible to fats and light like aniline.

### **Maintenance**

Dust on a weekly basis with a soft cloth or vacuum with a soft brush. If you spill something on your furniture, use a damp cloth to immediately dab off any excess. Do not rub. Do not use excess water, as water staining can occur. For a more detailed guide to maintenance please contact your nearest Wendelbo dealer.

### **Suitable for**

Patrol leather is suitable for larger sofa combinations like Blade, Edge, Elementz, Mood, Nova, Peak and Surface, as well as on smaller surfaces like lounge chairs Aero, Hug, Lobby, Sunday, Vista & Chill.

Patrol Black, Patrol Cognac, Patrol Dark Brown

## Buttero

Full grain wild aniline leather

Buttero leather is a wild aniline and reminiscent of Faith but has only very little surface treatment and the skin, which is why we only offer Buttero for our chairs.

### **Maintenance**

A recommended aniline leather protection cream can be applied to offer more protection against staining and scratching but this may alter the colour of the leather. When applying recommended cream, always pay attention to the instructions and test on an inconspicuous area first. For a more detailed guide to maintenance please contact your nearest Wendelbo dealer.

### **Suitable for**

Buttero leather is suitable on a smaller surface like lounge chairs Aero, Vista, Hug, Sunday, Lobby and Chill.

Buttero Black, Buttero Cuoio, Buttero Grey, Buttero Marrone, Buttero Sabbia
